WELCOME TO RENATUS

Our **MISSION** is to empower one million entrepreneurs with the knowledge, tools, systems and support needed to become financially flexible.

The Renatus **VISION** is summarized in our support of E.P.I.C. living, combining Education, Property, Income, and Community to help individuals to reach their highest personal and business potential.

By providing the best **EDUCATION**, Renatus celebrates the entrepreneurial spirit and encourages financial flexibility through knowledge and community. We recognize the powerful combination of real estate investments and business ownership as tools to increase immediate income, while building secure, long-term wealth.*

Real estate and **PROPERTY** ownership have proven to be powerful vehicles for wealth creation when the proper investment strategies are applied. Renatus takes great pride in the quality of its real estate investing education, from the instructional systems design, to the qualified practitioner instructors and the effective delivery system.

As students of the Renatus education enjoy success in their investing careers, they often become passionate about sharing it with others. When individuals become Independent Contracted Marketers (ICMs), they can leverage word-of-mouth marketing to share the education and enjoy the **INCOME** rewards of business ownership. The Renatus Affiliate Marketing Program allows individuals to earn money and build a team through this entrepreneurial opportunity.

Renatus is a **COMMUNITY** of principle-centered individuals making a positive, lasting impact on the world. The relationships we create through education, business ownership and real estate investing, allow us to enlarge the good we do. Networking and personal connections magnify the skills we have been taught so that we can become our very best selves.

Renatus is set to change the landscape worldwide with this great wealth creation system. More importantly, when entrepreneurs use their wealth and knowledge to help others, the true vision of Renatus is realized.

*Renatus does not guarantee any level of money, success or lifestyle from learning these strategies.

EDUCATION

RENATUS TAKES GREAT PRIDE IN THE QUALITY OF OUR CURRENT AND ACTIONABLE EDUCATION.

Our online video library containing more than 490 hours of training is available 24/7 through the Renatus learning platform.

All courses are taught by “practitioner instructors” who work hands-on in the areas they teach, so customers can be confident that these strategies are applicable to real life.

The courses adhere to the Instructional Systems Design method to deliver a consistent, effective learning experience.

The goal is to empower each learner with practical information that will inspire them to take action and achieve results.

EssentialsSM

The Renatus Essentials Learning Path introduces people to the world of real estate investing and small business ownership. These courses teach the concepts and mechanics of basic real estate transactions from acquisition to exit, and business start-up strategies from entity selection to banking.

Learners gain a foundational understanding that will lead them to take action and create cash flow. In addition to the course videos, learners receive access to weekly professional coaching calls and weekly guided online study groups, as well as the class audio files and workbooks.

PROFITS

The impactful P.R.O.F.I.T.S. Learning Path was created as an asset for entrepreneurs and small business owners around the world. Courses vary in content, with topics that are as applicable to budding businesses as they are to experienced CEOs.

Improve your company's results with tools and strategies for business management and explore personal development that can change the trajectory and future of your business. With the P.R.O.F.I.T.S. education, you take a solid step toward possibilities you never knew existed.

A.I.T.SM Accelerated Investor Training

We set out to create a comprehensive educational system that included a wide variety of topics. This gave rise to the Renatus Accelerated Investor Training (A.I.T.) courses.

These advanced Learning Paths offer a thorough and enlightening experience, delivered through 10 vocational paths, which focus on specific groups of Real Estate or Wealth Management strategies. The format begins with a solid foundation of CORE courses, then progresses to specific STRATEGY courses that help you understand the details for real-life application.

PROPERTY

WHY DOES RENATUS FOCUS ON REAL ESTATE?

Real estate is one of the two factors that are consistently included in the portfolios of wealthy individuals.

It is universal but flexible. Real estate is everywhere; shelter is a human necessity and providing it can be profitable in any location.

But investing in property also allows for different investment strategies, risk levels, and personality types.

Real Estate is an IDEAL Financial Investment:

I is for **Income**. You can generate massive income from wholesaling and fix & flips. Passive income is earned through building your long-term rental portfolio.

D is for **Deductions**. You get to depreciate the very asset that is earning a profit for you.

E is for **Equity**. As we make payments and watch the equity rise in our properties, net worth increases as well.

A is for **Appreciation**. Over time, real estate is pretty predictable. Declines tend to be rare and brief.

L is for **Leverage**. You can use your property as leverage to increase investments and earn a greater return in your business.

When compared with the stock market, property ownership can be the difference between investing for accumulation versus investing for cashflow. Rather than building a nest egg, continuous passive income from rentals increases the financial independence of investors.

There are a variety of real estate options to fit different needs and Renatus classes are expanding to teach them all, including residential, multi-family, commercial, and short term rentals.

We have learning paths to complement an individual's personal risk and funding levels, from no credit and no cash, to investing with an IRA, to using other people's money.

Whatever real estate strategy you choose to employ, Renatus education is there to inform, educate, update and support you through the process.

INCOME

YOU MAY FIND THAT YOUR REAL ESTATE
INVESTING SUCCESS GAINS NOTICE
AND QUESTIONS ABOUT WHERE YOU
LEARNED HOW TO DO IT...

Independent Contracted Marketers (ICMs) earn commissions on sales of our education. Are you interested in earning money by sharing your experience with the Renatus education?

If you want to know more about earning your own commissions by sharing the message, contact the person who introduced you to Renatus.

WHAT IS
THE RENATUS
WEALTH
CYCLE?

Whether you begin by purchasing the education or selling the education, the Renatus Wealth Cycle becomes an active possibility: Education leads to real estate deals, leading to real estate success, leading to sales success, which can lead to further education.

The Renatus Compensation Plan is generous and simple, including direct sales commissions, downline sales commissions and overrides. Many Renatus education learners choose to sell the education and earn income while they learn how to implement the real estate strategies.

Events, recognition, and awards are a part of the Renatus ICM experience, in addition to commissions. Trips, medals, trophies, and prestige are often gifted to top earners and leaders.

*Renatus does not guarantee any level of money, success or lifestyle from learning the education strategies or marketing the education. To see what ICMs made last year, go to: <https://renatus.me/averageearnings>

COMMUNITY

ONE OF THE MAJOR BENEFITS OF RENATUS EDUCATION IS THE COMMUNITY — The support and energy continue to grow as people attend each of our events.

Renatus communities host online and live events across the continent, from New York to California.

Social media groups and posts are another way to keep connected from anywhere in the world.

Regional groups and teams meet in live local meetings, at events that range from small get-togethers, to real estate workshops where local experts share their experience.

Larger events are organized for ICMs with leadership training and national conferences that disseminate new information, foster networking, inspire action and self-improvement, and reinforce relationships.

Learners can also enjoy events as they are streamed online or attend a live class filming as a part of the studio audience when new classes or updates are filmed.

Other online events include weekly study groups where classes are discussed and questions are answered. Group coaching is also held weekly through online meetings.

The wonderful assistance you can receive through Renatus customer support and corporate staff is not to be underestimated. We are real people in a relationship-driven industry and we are each dedicated to helping you succeed!

Social media is a fantastic way to get involved with the Renatus community. Your results will vary and depend on several factors, including your starting point, effort, and resources. Be aware that success in real estate investments requires hard work, dedication, and a good understanding of the market. Because Renatus does not track the real estate deals executed by our students, we cannot verify the numbers or success stories presented by individuals. Such representations are based on the personal experiences of those individuals and should not be construed as typical or standard.

Renatus is not Cupid, we don't set people up on dates, and don't guarantee you will find the love of your life at a meeting... However, Yas and Umaer Haq are an amazing couple who happened to connect at a Renatus event.

Umaer was working a few small jobs, including as a personal trainer and food delivery, when he saw the roadside sign that led him to a Renatus event. He had struggled with traditional school, but when he attended the meeting, he appreciated the collaboration of online classes and the in-person community. He immediately focused his time on the classes, while Yas kept her full-time job. They are now a team of real estate investing entrepreneurs.

Both Yas and Umaer have enjoyed watching the classes, being able to repeat the content, slow it down to overcome language barriers or speed it up for a quick review. They also love the applicable content, focusing on practical steps and solid facts rather than theory.

"I've learned more about myself through the Renatus education. It's auditory, it's visual, it's kinesthetic... I'm listening, I'm writing things down. We go to the study groups. When I follow with the workbook, it helps that information stick in my mind." ~ UMAER HAQ

Their favorite courses and strategies include Contract for Deed, Velocity Banking, Tax & Legal, Negotiations, Real Estate Sales Success, Team up with Tenants, and Short Term Rentals.

During the 2020 coronavirus pandemic, Umaer and Yas continued to watch the classes while they were at home, so they could implement the right strategy for the current market changes. They bought a mobile home park and a few more rentals.

"I'm able to help my family, my dad. I always leaned on him to get me out of trouble. Now, we've been able to help my family with just one of the business models." ~ UMAER HAQ

When sharing the Renatus education, they like to help create a customized learning experience for new learners. They enjoy helping new learners create a vision through their own lens of experience. That is what demonstrates the real power of Renatus.

CHRISTION SADLER

Christion Sadler has been with Renatus since day one, when it was launched on January 1, 2011. Before that, he had been a full-time real estate investor, but he and his business partner had suffered through the 2008 market crash. He was looking for hope when Bob Snyder (Renatus founder) reached out to him and said, "I have a plan. I'm moving forward and I'm launching something that's going to be great." Christion appreciated that Renatus was structured to be long-lasting, even in economic downturns.

"It was the beginning of a new chapter in real estate."

Since then, Christion has utilized a variety of the classes and strategies that are in the Renatus course library. He likes that, depending on the needs of the time and situation, students can just go through the course library and find what works. And he has done that many times in the decade he's had the Renatus education.

Currently, Christion is focused on commercial real estate. One of his favorite deals was 100 acres of land that he purchased in rural Utah and then divided and sold over the next three years, earning a huge return on his investment without even developing the land.

Christion is also a Renatus ICM and has found success marketing the education.

"Anybody who believes in the education should be an ICM, anybody who wants to be that gateway to somebody else changing their life. I've been able to work with the local homeless population and I would not have the time and resources to do that unless I first put myself in a higher position by getting started with Renatus, utilizing their education, and elevating myself."

Renatus does not guarantee any level of money, success or lifestyle from using the Renatus education. This experience is unique to the customer. Your results will be different and will vary depending on several factors, including your starting point, effort and resources. Renatus does not track results of those using the education. Inquiries about actual results should be directed to the individual featured.

MIKE & CARI SKRDLA

The Skrdlas are Renatus 5* ICMs and have been education holders since 2018, and have found strong financial success in both!

Though Cari was skeptical at first, when Mike showed her the results he was getting from Renatus, they were both all in. *“There’s something about money showing up in your bank account that’ll get your attention!”*

Before Renatus, their retirement wasn’t quite what they wanted it to be and when Mike needed a quintuple bypass, it was an eye opener for them both. She said, *“We don’t know how long we’re going to be here. Let’s get this done so we can enjoy retirement and enjoy each other.”*

That’s exactly what they’ve done. Mike and Cari are living the dream together and enjoying life. *“We have residual income, the freedom to go and do and travel and be the people we want to be. It seems too good to be true, but it’s the real deal.”*

“What we love most about Renatus is the supportive community and the wealth of knowledge.”

Renatus does not guarantee any specific level of income, success, or lifestyle as a result of using the Renatus education. The experience and outcomes are unique to each individual customer. Your results will vary and depend on several factors, including your starting point, effort, and resources. Success in real estate investments requires hard work, dedication, and a good understanding of the market. Because Renatus does not track the real estate deals executed by our students, we cannot verify the numbers or success stories presented by individuals. Such representations are based on the personal experiences of those individuals and should not be construed as typical or standard.

“Since becoming members of Renatus, we’ve successfully completed **12 fix-and-flip projects**. We’re currently constructing **40 townhouses** and **developing a subdivision** on another 150-acre piece of land. We’re also shifting our focus towards a buy-and-hold strategy, with an emphasis on acquiring apartment buildings. Each venture has contributed to our knowledge base, offering invaluable experiences and insights.

“There have been numerous memorable instances on our journey. However, acquiring land for our townhouse project was one that stood out. We applied what we learned in the Renatus courses ‘Creative Acquisitions’ and ‘Contract for Deed.’ These courses introduced us to innovative strategies we had not considered before.

“In this case, we utilized seller financing to acquire the project. This was a new concept to the previous owner, who had never explored this transaction method. We took the opportunity to educate him about the procedure, detailing the benefits and process involved. Through our transparent and informative approach, we were able to earn his trust and ultimately secure his agreement to the deal.

“Additionally, the **Velocity Banking** course has been instrumental in helping us understand how to leverage debt to accelerate wealth creation. This strategy involves using a line of credit to pay off mortgage debts faster, saving on interest costs, and building equity quickly, which resulted in a **50K debt elimination** for us.

“The Commercial Real Estate course gave us a deep understanding of investing in commercial properties, from office buildings to shopping centers. It taught us how to evaluate these properties and gain effectiveness in negotiating deals.

“The wealth of knowledge available through Renatus is astounding! These courses are informative and practical, equipping us with the tools and techniques we need to navigate the real estate market successfully.

“What sets Renatus apart is its commitment to empowering us. It doesn’t just provide information; it instills confidence, fosters growth, and promotes a success mindset. By offering comprehensive resources and fostering a supportive community, Renatus empowers us to turn knowledge into action, realize our investment goals, and, ultimately, succeed in our real estate investing journey.”

ERICA HERNANDEZ

Erica Hernandez is from Perth Amboy, New Jersey. She's been part of Renatus since May of 2016, when she was working in the restaurant industry. Though she had already decided to invest in real estate, the Renatus community was a really beautiful component and turning point because she could see the whole picture of building wealth through real estate. After purchasing the education, Erica knew that she wanted to share it with people. She is an ICM because she knew the people in her life could benefit just as much as she had.

Her original plan had been to put the real estate education into action when she was older (after retiring). But through watching the classes, she saw the opportunity to invest in real estate immediately, no waiting necessary.

Creative Acquisitions with Chris Albin was the one that really opened her eyes. He went over all the strategies and what they actually look like, with the little signs and roles. He mapped it out and made it so simple. Erica realized she didn't need the money to start investing – just the right technique.

"I had all of these preconceived notions that I have to have all this money saved up. I have to have amazing credit. This class was like, nope, I don't need that. These are creative acquisitions. I like to be able to support somebody who's in a difficult situation by taking the stress off their hands and creating a win-win situation."

Erica was introduced to someone who needed to sell their property, who needed to get out of a bind. They owed \$45,000 in unpaid taxes and the house was worth \$800,000. It needed serious renovation, but with that much equity, it was a no-brainer. She knew she could sell it immediately for a profit but wanted to hold out for the renovations.

"My passion is being able to see the 'before' and then to be able to see the 'after.'"

Unfortunately, with the coronavirus and the pandemic, renovations were halted due to the difficulty of removing non-paying tenants. Still, the sale of the property is expected to yield a net profit of over \$900k after expenses for herself and her partners.

Renatus does not guarantee any level of money, success or lifestyle from using the Renatus education. This experience is unique to the customer. Your results will be different and will vary depending on several factors, including your starting point, effort and resources. Renatus does not track results of those using the education. Inquiries about actual results should be directed to the individual featured.
