What factor can significantly increase an ICM’s chances of earning income?	ICMs who have guests that attend Renatus events are far more likely to earn income. ICMs (new and existing) who had at least one guest to a presentation each month of 2024 made an average of \$18,892 in 2024. The percentage of ICMs who did not have any guests attend any Renatus events in 2024 was 77%.			
How long does it take new ICMs to reach each qualification level?	The qualification levels are 1 star, 3 star and 5 star. The time to reach star qualifications is very individualized, and depends on your level of experience, number of leads, how much work you put into marketing, and what customers purchase. There is no guarantee that someone will reach a star qualification or reach one within a calendar year. Of those ICMs who do accomplish this, the chart below shows the average, median, and range of days it has taken them to reach their 1*, 3*, and 5*.			
	Qualification Level	Average # of Days	Median # of Days	Range of # of Days
	1 Star	66	35	9-168
	3 Star	91	77	17-194
	5 Star	75	75	75

There are no guarantees regarding income. Our estimate of what the typical ICM is likely to earn is between \$25.00 and \$1,699.21 USD per year. An ICM, for the purposes of this estimate, includes all ICMs who make a commissionable sale of Renatus Educational Services within the one year period. This estimate is subject to change after the first six months' of our operation in Canada and will be updated annually thereafter. This 'typical' figure is representative of the smallest range of compensation expected to be earned by over 50% of all ICMs in the plan. All amounts listed are in US dollars.
